APPLICANT'S REQUEST FOR CORRECTION OF TITLE OF THE INVENTION

Dear Sir:

I **Status of the Application**

A ***Notice of Allowance and Fee(s) Due*** was issued by the United States Patent and Trademark Office on September 7, 2004. The pending ***Notice of Allowance*** has a deadline for payment of the issue fee of December 7, 2004. Concurrently herewith Applicant is filing a ***Request for Continued Examination*** in order to obtain the additional time required to prepare and file an Information Disclosure Statement making additional prior art of record. ***Applicant's Request for Correction of Title of the Invention*** and Applicant's ***Request for Continued Examination*** are timely as they are being filed on December 6, 2004.

II Applicant Requests Correction of Title of Invention

The Filing Receipt which was mailed by the United States Patent and Trademark Office on June 19, 2002, inadvertently recited an incorrect title for the Invention, "Protective circuit for protecting active components from over-or undervoltage" (copy attached hereto as **EXHIBIT A**).

As indicated by the cover sheet of Published International Application No. PCT/EP00/02992 (copy attached hereto as **EXHIBIT B**), upon which the United States Application is based, the correct title is "Method and Device for Enriching Air with an Air Treatment Agent."

Applicant requested correction of this Patent Office error in a facsimile communication to the Office of Initial Patent Examinations/Filing Receipt Corrections, on November 14, 2003 (copy attached hereto as **EXHIBIT C**).

Although Applicant reiterated the request that the title of the invention be corrected in ***Applicant's Response Under 37 C.F.R. § 1.111 To United States Patent and Trademark Office Examiner's Action*** filed December 23, 2003, the incorrect title continued to appear in a ***Notice of Allowance*** dated March 10, 2004, and the pending ***Notice of Allowance*** dated September 7, 2004.

As the incorrect title became associated with this application as the result of a clerical error on the part of the Patent Office, and furthermore, as the incorrect title has nothing to do with Applicant's invention, Applicant respectfully requests that the original, correct title be listed as the title of the invention:

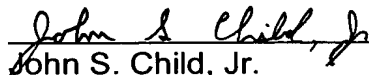

METHOD AND DEVICE FOR ENRICHING AIR WITH AN AIR TREATMENT AGENT.

III Conclusion

The Examiner is requested to telephone the undersigned attorney if there is any matter requiring clarification concerning United States Patent Application Number 10/019,239 that can reasonably be expected to be resolved in a telephone interview.

Respectfully submitted,

DANN DORFMAN HERRELL AND SKILLMAN

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

(54) Title: METHOD AND DEVICE FOR ENRICHING AIR WITH AN AIR CONDITIONING AGENT

(54) Bezeichnung: VERFAHREN UND VORRICHTUNG ZUR ANREICHERUNG VON LUFT MIT LUFTBEHANDLUNGS-
MITTEL

(57) Abstract: The invention relates to a method for enriching air with an air conditioning agent (12), especially for sterilizing the air. According to the inventive method, an air conditioning agent (12) in the liquid phase is introduced into the air and evaporated. The ratio of conditioning agent in the air ranges from 0.1 to 0.002 ml, preferably from 0.01 to 0.005 ml per m³. According to the inventive device for enriching air with an air conditioning agent (12) a liquid air conditioning agent (12) is provided in a reservoir (10). Said agent is guided into a turbulence chamber (16). A fan (24) produces an air current (34) in said turbulence chamber. Said air current (34) leads to a turbulence of the liquid air conditioning agent so that a mixture consisting of air and vaporous air conditioning agent is discharged from the turbulence chamber (16).

(57) Zusammenfassung: Bei einem Verfahren zur Anreicherung von Luft mit einem Luftbehandlungsmittel (12), insbesondere zur Luftentkeimung, wird ein Luftbehandlungsmittel (12) aus einer flüssigen Phase in die Luft eingebracht und verdampft. Hierbei beträgt der Behandlungsmittelanteil in der Luft pro m³ Luft zwischen 0,1 und 0,002 ml, vorzugsweise zwischen 0,01 und 0,005 ml. Bei einer erfindungsgemässen Vorrichtung zum Anreichern der Luft mit einem Luftbehandlungsmittel (12) ist in einer Vorratskammer (10) ein flüssiges Luftbehandlungsmittel (12) vorgesehen. Dieses wird in eine Verwirbelungskammer (16) geleitet. In der Verwirbelungskammer (16) herrscht ein durch einen Ventilator (24) erzeugter Luftstrom (34), der eine Verwirbelung des flüssigen Luftbehandlungsmittels bewirkt, so dass aus der Verwirbelungskammer (16) ein Gemisch aus Luft und dampfförmigem Luftbehandlungsmittel austritt.

WITH AN AIR TREATMENT AGENT
Dann Dorfman Reference No. von Kreisler.019

TOTAL PAGES: 2 (including this cover)

Please make the correction noted by an "*" on the attached copy of the Filing Receipt which was mailed by the USPTO on 06/19/2002, namely, the substitution of the correct title for the invention, "METHOD AND DEVICE FOR ENRICHING AIR WITH AN AIR TREATMENT AGENT." The incorrect title which appears on the Filing Receipt must have been a USPTO clerical error and clearly has nothing to do with the present invention. Thank you.

Respectfully submitted,

John S. Child, Jr.
